MEDIA CARD
CENTRE

- High quality printing with an impressive 6,000dpi resolution and a minimum droplet size of only 1.5 picolitres (pl)
- Print with speeds of 33 mono and 27 colour pages per minute
- Easy to use – with one line LCD screen and simple to follow menu options
- Quick and easy direct photo printing via camera using PictBridge or Media Cards
- Reduce waste and save money using four individual ink cartridges with fade resistant ink

Do More

DCP-195C Compact Colour Inkjet Multifunction Printer with Media Card Centre.

Print, copy and scan to produce professional, high quality documents with one compact, stylish machine that allows you to Do More.

The DCP-195C offers impressive 6,000dpi print resolution and 1.5pl droplet size, ensuring your documents are printed to a professional standard. Print speeds of 33 pages per minute for mono and 27 for colour give you fast results every time.

Save time when printing or scanning documents with the easy to use print from and scan to USB or media card features, without the need to turn on your PC. Print borderless photos directly from your digital camera with the PictBridge interface.

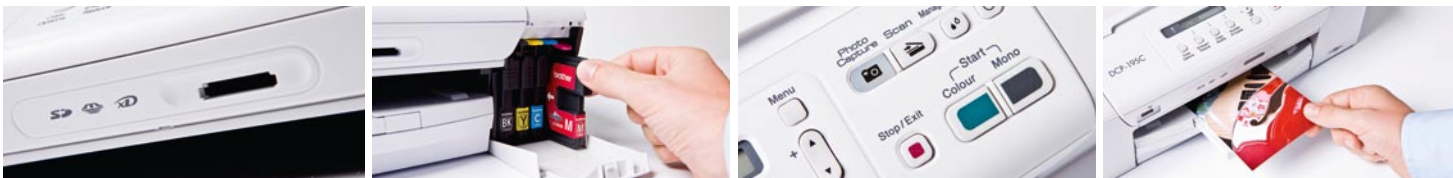

Scan individual and bound documents with ease with the DCP-195C's flatbed scanner. The machine's easy to use LCD display guides you through a number of scanning options including the option to scan directly to email or media card.

The DCP-195C complies with the ENERGY STAR and the German Blue Angel environmental standards, ensuring low energy consumption, low noise levels and a recycle-friendly design.

All Brother inkjet multifunction machines implement an individual ink cartridge system. This means you only have to replace the colour that runs out instead of having to discard an entire tri-colour cartridge - reducing waste, protecting the environment and saving you money.

To achieve the highest print quality and 100 years fade resistance* we recommend using original Brother LC980 ink cartridges together with Brother BP71 Premium Plus photo paper.
