WOP201 Black Label Zero Paper FSC 75 g/m²

Black Label Paper is made using the most modern filler and fibre technology. The filler and raw materials, production speeds and dehydration are carefully monitored to give the ideal stiffness and thickness, plus outstanding homogeneity for high-speed copying and printing. Excellent throughput speed makes Black Label Paper a reliable choice for use in laser printers and copiers.

WOP913 Green Label Paper FSC 80 g/m²

Green Label Paper is a chlorine-free bleached paper with a natural whiteness achieved without optical bleaching agents. This environment-friendly paper is made of 100% chlorine-free cellulose (TCF) pulp. Bleaching takes place in stages, using an oxygen compound. The wide range of weights and sizes makes Océ Green Label Paper the ideal basis for your house style.

Satinated Papers - Results for Canon imageRUNNER 1133/A/iF

SAT013 Top Colour Paper FSC 90 g/m²

Top Colour Paper undergoes a special surface treatment during manufacture. The high degree of whiteness and satin gloss gives colour prints a distinct and vivid appearance.

The very smooth surface reinforces the impression of exclusivity (also to the touch) and reduces the amount of toner needed for coverage. Thanks to the first-class finishing process, these papers leave no paper dust or cutting residue. The papers have high opacity, so duplex printing is possible. Excellent running character

COP310 Coloured Papers Bright/Warm FSC 80 g/m²

Océ Coloured Papers are the best coloured papers currently on the market. With the finest fibres, high opacity and a very smooth surface, Océ coloured Papers ensures runnability and high image quality. Tints are evenly spread throughout the paper so every square centimeter on both sides of the paper has the same perfect colour.
